Review Community Meeting 20-Jan-22:

- Gathertown was very well prepared and worked as successful meeting environment
- Outstanding Preparations for the meeting by Topic Groups
- Written feedback: "A very lively and content-rich event"
- Gathertown room can be obtained from Judith Reindl.
- Apparent overlap Topic Groups – to be worked out.
- Screen shots will be prepared for talks according to the returned consent forms.

Overlap Topic Groups

Some overlap between Topic Groups became apparent during the community meeting. E.g., Federated Infrastructures ↔ User Interface, or Research Data ↔ Big Data Analytics ↔ Knowledge Distribution, etc. A separate 90 min. meeting of the Topic Group Chairs and Deputies will clarify where the overlaps exactly are, and decide in which configurations follow-up meetings may become necessary. Martin sends time planner with options: <https://terminplaner.dfn.de/uT4P1MVSCoart4Sr>

Future BMBF Calls

It is very important that we bring digitization needs from the various ErUM communities to the attention of the BMBF and PT.DESY at an early stage, well before a strategy meeting and a BMBF call. It is also important to bundle the information from the communities via the Digitization Board so that the priorities of the needs can be clearly formulated. Here, the topic groups play a key role in the experts preparation. For the exchange with PT.DESY, Wolfgang Ehrenfeld will be invited to the Digitization Board Meeting as our guest on dedicated topics about quarterly: [First invitation on 17.2.22, 8:30 meeting](#). In addition, good exchange with Referat 711 need our attention.

Mailing Lists

Subscriptions to the Topic Group mailing lists were of order 10-20 participants in every group. Knowledge Distribution plans a monthly newsletter to its members.

→ [Digitization Board representatives need to make sure that their committee is somehow involved in the various Topic Groups by interested members.](#)

ErUM-Data-Hub Team

Our selection committee has awarded a half-time referent position to Peter Fackeldey starting Summer 22. In addition, the committee has invited two applicants to meet face-to-face for Hub communications. Team Leader, Referent:in, and Technical Support are currently being re-advertised:

→ [Big request to you to contact all persons who see a future in science management for themselves \(e.g. project management \(Projekträger\), politics, science administration\).](#)

Workshops

The Knowledge Distribution Team is organizing the Train-the-Trainer workshop, date (30.-31.3.22) lecturers, room are clear, indico will open for registration soon: <https://indico.scc.kit.edu/event/2638>

→ [Request to all: which persons \(Postdoc, Lecturer, Professor\) are capable to give courses on Deep Learning in the future and should be contacted and invited?](#)

Future biweekly meeting Digitization Board

Next Meeting 17-Feb-2022, 8:30-9:30.
