

## **Zoommeeting Digitization Board 22.9.2022, 8:30-9:15**

Marvin Berlinghof PT.DESY (Gast), KHuK, Jan Steinheimer, KET, Günter Quast, KFN Susan Schorr, KFSI, Judith Reindl, KAT, Gernot Maier, KFS, Christian Gutt, Bridget Murphy, KfB, Erik Bründermann, RDS, FI, Kilian Schwarz, BDA, RDM, Astrid Schneidewind, Monica Valencia-Schneider, UI, Pierre Schnizer, Tim Ruhe, KD, Dirk Lützenkirchen-Hecht, RPB, ErUM-Data-Hub, Peter Fackeldey (Gast), Angela Warkentin (Gast), SP, Martin Erdmann

The meeting started with short **self-introductions** including scientific background, ErUM community, and mandates in DIG-UM/ErUM-Data.

### **PRISMA Forum / ErUM-Data-Hub**

Information on the ErUM-Data-Hub was presented to the PRISMA Forum by Mr. Lilienthal on 30.8.22. Mrs Petersen reported that he thanked for the input of the Forum on 8.3.22 and mentioned that recommendations of the forum were taken up [referencing 1) joint planned event with NFDI – see below -, and 2) starting at an early stage of education with already PhD and Master students at our summer school. The graphic with the different participations from different ErUM communities was also explicitly highlighted and well received.] The BMBF presented the ErUM-Data-Hub very positively and emphasized the important role in data science education.

### **Common Workshop with NFDI**

The common workshop ErUM-Data and NFDI will be in person at the meeting facilities of the Frankfurt Airport 11:00-16:00 on 24-Oct-2022 (planned to be not hybrid). The room has been booked for 30 (up to 50) participants, a catering will be organized. An indico page for the agenda and registration will be prepared by DESY people. The program is being worked out by Astrid Schneidewind, Monica Valencia-Schneider, Kilian Schwarz, Thomas Schörner-Sardenius. The agenda includes presentations on the actual progress in both structures and sufficient time for strategy-forming discussions.

### **Annual Meeting of the ErUM-Communities**

The annual meeting will take place in week 50 as a purely virtual meeting. An exact date is still to be announced by the overview board.

According to our guidelines, the 1-year mandate for all topic group chairs, deputies and the spokesperson finish at the end of this year. The mandates need to be renewed, or new candidates need to be found. The following actions are needed from the topic group chairs:

**Please send an email to your mailing list asking for nominations for topic group chairs and deputies to be sent to Martin Erdmann (Spokesperson), and asking everyone in ErUM-Data for nominations for the spokesperson to be sent to Uli Katz (chair of the Overview Board).**

### **Planning for the 2023 Programme**

The planning of the 2023 programme has been started by pre-reserving slots in Haus Nordhelle in Meinerzhagen. The Knowledge Distribution group will meet in the next two weeks to fix dates & topics of foreseeable schools and workshops, and produce indico pages and announcements in a timely manner. The AKPIK offers further commonly organized events which implies that announcements reach >1000 DPG members and the DPG calendar of events. The planned workshop on *Sustainability* is rated most interesting by several members of the Digitization Board and will be prepared with priority and great care, taking into account already running activities e.g. at Helmholtz. The interest in deep learning education was reported to be very high from conversations at the SNI conference ([https://www.helmholtz-berlin.de/events/sni-2022/index\\_en.html](https://www.helmholtz-berlin.de/events/sni-2022/index_en.html)).

### **Future monthly meetings (partly shifted)**

- Next Meeting 6-Oct-2022, 8:30-9:30 **Topic Groups**
- Next Meeting 27-Oct-2022, 8:30-9:30 **Digitization Board**
