Topic Group Plannings

- Federated Infrastructures (Markus):
 - The document on the needs of the different communities will be open access on www.erumdatahub.de very soon, will be published in the Journal on Computing and Software in Big Science.
- Big Data Analytics (Thomas, Jan):
 - The first meeting of the topic group with new chairs will be this afternoon.
 - The Train-the-Trainer workshop 7./8.2. in Garching needs registrations, we'll all use our personal connections to encourage participations. The dhelp-mailing list will be also used.
 - After that the next big event is the BDA connection workshop in Hamburg 23./24.2. Information about the workshop has been distributed by PT.DESY to all funded ErUM-Data projects and the speakers of all initial project-sketches with in total 130 addresses. PT.DESY and ErUM-Data-Hub will have a time slot.
- Research Data Management (Astrid, Monica):
 - The planning of the follow-up meeting ErUM-Data&NFDI in Cologne is well advanced, an initial agenda is out.
 - An interesting conference will be "1st Conference on Research Data Infrastructure", Karlsruhe 12 – 14 Sep. 2023, <https://www.nfdi.de/cordi-2023/?lang=en>, ErUM-Data/DIG-UM should get a time slot here.
- User Interface (Pierre):
 - The workshop 12./13.4. in Berlin will be in person.
 - The organization is well advanced, the topics have been fixed, key note speakers are being contacted. Key note speakers may be admitted hybrid.
 - Next meeting of the program committee 24.1.
 - One format for exchange will be a world café, i.e. poster session with a teaser and two organizers – moderator and protocoller – lasting 30-45 minutes, possibly including coffee break.
- Knowledge Distribution (Dirk):
 - A rich program for 2023 exists already (for the program see below).
 - The planned topics are seen to be slightly biased towards KET, KAT, KHuK. Thus, further topics for the other communities are in the planning focus now.
 - A first meeting of chair and deputy is planned for 13.1.
 - A big point is still the distribution of information on the events to the people we want to reach. Posters have been distributed to many universities, and to the chair persons of the Research Training Groups of the DPG. Announcements in Wuppertal Colloquia is exemplary for other sites.
- ErUM-Data-Hub (Angela):
 - We all welcome as a new member of the ErUM-Data-Hub Benjamin Fischer who has a broad expert knowledge in topics of digital technologies and will take care of the technical support.
 - The ErUM-Data-Hub also searches for a new communication person, the announcement will be published shortly.
 - All planning of the workshops and schools (for the program see below) are well advanced.

- Registrations for the summer intensive courses in Meinerzhagen are already open and people registered already.

BMBF ErUM-Data Call 2025

Concerns about the timing of the upcoming BMBF ErUM-Data calls Q4/2025 continue. New on the list are the Clusters of Excellence, which will be renewed in 2026 and are looking for new staff in close temporal connection with ErUM-Data consortia.
