### **Workshop ErUM-Data and NFDI, Bonn 13.-14.3.23, Monica, Astrid**

The third workshop of ErUM-Data and NFDI in Bonn was again a great success and showed that it is a living exchange forum. The circle of participants reaches far beyond the core persons in that the NFDI consortia Fairmat and Base4NFDI are also present, Helmholtz Meta Data is represented, and representatives of the envisaged data competence centers introduced their ideas at this workshop. In addition to presentations, a round table discussion was held by one representative each from ErUM-Data, NFDI, Data Competence Centers, Helmholtz-Zentrum-Berlin. The questions asked by the discussion leader were very suitable to formulate basic questions and attitudes in the different areas and mutual wishes and ideas. These topics were also reflected in the five working groups that discussed the following day: Training and Schools, Metadata and Interoperability, Sustainability in Computing, Cooperation with Industry, Research Software and Reproducibility. All of these topics will be compiled into a white paper along with the results of the past workshops. The next meeting will be held in late October early November, and the search for possible dates is underway.

### **Programme Planning Workshops and Schools 2024, Dirk, Angela**

The Topic Group Knowledge Distribution together with the ErUM-Data-Hub are organizing workshops and schools in 2023, six of which are fully organized by the ErUM-Data-Hub and five of which are supported events. The program for 2023 is already in place. Program planning for 2024 is well advanced. This will again include Deep Learning schools, plus as novel events a workshop on software tools and career days jointly organized with the LHC office and the Belle 2 office. A workshop on programming with GPUs is also envisaged.

### **NFDI-Convent 12.-14.9.23, Dirk, Astrid**

Sep. 12-14 there will be a superior NFDI conference of all consortia, where also the cooperation between ErUM Data and NFDI will be presented, eventually also the ErUM-Data-Hub and its activities.

### **Hannover Messe 17.-21.4.23, Angela, Peter**

Everything is prepared for Hannover Fair, the joint booth of ErUM Data Hub, LHC office, Belle 2 office will be set up on April 15, the fair will run from April 17-22. Free tickets can be requested from ErUM Data Hub.

### **Workshop on User Interfaces Berlin 3.-4.5.23, Pierre**

The Berlin Workshop on User Interfaces is fully prepared, and the invited keynote speakers cover a wide range of efforts on forward-looking work environments for scientists. A Word Café is also planned for an interactive and creative exchange of ideas.

### **Workshop on Sustainability 30.5.-2.6.23, Martin**

The workshop on sustainability in Meinerzhagen is almost completely scheduled. From the acceptances and cancellations and new invitations, we now have a program for four sessions in which ten keynote talks will be presented. Eight speakers have already confirmed, two speakers still have a question mark. It is proposed to invite Thorsten Kolleger for Green Computing instead of Volker Lindenstruth, this is still being discussed with the program committee.

# Train-the-Trainer Workshop Advanced Concepts Dortmund 19.-20.6.23, Angela

The Train the Trainer workshop in Dortmund on advanced concepts of Deep Learning is so far scheduled.
