DIG-UM Annual Meeting

The Agenda of the Annual meeting 11.12.23, 14-16 is final https://indico.desy.de/event/42173. The Overview Board Meeting is being prepared with Uli Katz and Erik Bründermann.

Topic Groups: Presentations Annual Meeting in view of ErUM-Data Strategy Meeting
The actual presentations have been uploaded to the DIG-UM Wiki
https://wiki.erumdatahub.de/de/annual-meeting
or alternatively for a 1-week period in https://gigamove.rwth-aachen.de/de/download/b28241566fa88f4008c4727859e4d6d0

Items to be observed
- Immediately after the BMBF strategy meeting we will aim at supporting groups to form consortia for the upcoming ErUM-Data funding call.
- We aim at a federated ansatz of various possibilities:
  - Indico *Börse* invented by Erik Bründermann https://indico.desy.de/event/28766.
  - The topic groups will organize topical & local come-togethers.
  - Talk to the ErUM-Data-Hub Team how to find groups for connecting.
- Note that the ErUM-Data-Hub team has already a full programme for 2024, but can provide moderate remote support for the topic group come-togethers as needed. See next bullet to improve situation & enlarge the team capacities.
- The ErUM-Data-Hub team is looking for part-time Referent:innen, not necessarily localized in Aachen. Typical candidates are PhD students with digitization background who are enthusiastic in networking and help organizing workshops & schools, and like to upgrade to a full E13 salary.
