DIG-UM nomination topic group chairs & deputies

Intensive discussions are underway. The Deputy Chair for "Research Data Management" has agreed to his nomination. We are in conversation with the candidates for the chair of the "Research Data Management" topic group and the deputy chair for "Federated Infrastructures".

Building Application Consortia for ErUM-Data Funding Application

We will prepare a poster for the three DPG spring conferences. The aim is to draw attention to the upcoming funding period of ErUM-Data and to motivate the participants to discuss during coffee possible topics and consortia. We will ask the organizers to place the poster e.g. in the entrance area or at another frequently passed place.

ErUM-Data Funding Application

KFS spoke to PT.DESY about the financing of computer hardware installations within ErUM-Data applications. They received the clear message that the hardware will not be financed at all.
