Reports of Spokesperson and Topic Groups

The DIG-UM annual meeting will take place on 1.12. at the LUMO Studios in Munich. Angela sent around the invitation. We are still looking for a keynote speaker. A FRM II visit is offered on the next day.

The applications of DAPHNE and PUNCH were successful, but with a cut of 35%. A joint workshop of DAPHNE, PUNCH, and DIG-UM to discuss the longer-term vision for the community was considered useful.

Angela reported about KD activities. The Hub participated in a music festival to get in contact with people that one usually does not reach. In September there will be the advanced deep learning school and in October an entrepreneur workshop is planned. The community is interested in more expert workshops and industrial coding.

The organization of the RDM workshop together with FI and UI on October 1+2 is progressing.

ErUM-Data-Hub 2.0

The BMFTR wants to have an application only from one site. The other sites will be included as associate partners. A brief summary was provided to the BMFTR. The formal application should be submitted by the end of July.

A first meeting for planning the Hub activities in 2027 will be on August 6.

Transferhub

Martin reported about the ongoing discussions about an application for a transfer hub. The [call](#) is seen as an opportunity to implement the recommendations of the HTAD white paper of the ErUM communities.

Organization of Topic Groups

A meeting of the TG chairs is planned to be attached to the RDM workshop. As the term of the TG chairs and deputies ends this year, the TGs are asked to come up with candidates so that one can take a look at the distribution across ErUM communities at the September DB meeting.

AOB

Arman and Kilian will organize an online workshop on AI token resources on September 3rd. Thomas reminded the DB members about the [EuCAIFCon](#) in Heidelberg end of August.

The next DB meetings will be on 17.9., 15.10., and 19.11.
